## CARTER AIDES SAID MOVING TO DUMP TURNER AS CIA CHIEF

United Press International

Members of the White House staff are attempting to ease Stanfield Turner out of his post as CIA director, the Detroit News reported today.

The paper said the effort was being led by national security adviser Zbigniew Brzezinski, with the tacit support of Secretary of State Cyrus Vance.

The report said President Carter, an Annapolis classmate of Turner's, is seeking a face-saving way to remove Turner from control of the intelligence agency without having to fire him.

The move against Turner reportedly stemmed from dissatisfaction with the way he has run the CIA.

CIA CHIEF STANFIELD TURNER
